ProductFlow Ready for

Foodstuffs New Zealand 9429000008990

05 April 2023

Foodstuffs Charge Through Approved Supplier: "Approved"

Overview

Congratulations on becoming certified to use ProductFlow for Foodstuffs.

Foodstuffs will now expect you to use ProductFlow for any new product introductions or product changes. Through ProductFlow, GS1 will assist and work with you to get your information accurate **before** it is used in Foodstuffs business.

	Process	Training
Data	For all new product introductions or changes load your data to your catalogue and then complete the ProductFlow application.	✓
Images	For all new product introductions or changes, use the ProductFlow application. It will direct you where to send your products for photography.	✓
Barcode	For all new product introductions or changes, use the ProductFlow application. It will direct you where to send your products for Barcode Verification.	✓
On Pack Data	For all new product introductions or changes, use the ProductFlow application. It will direct you where to send your products for On Pack Data Collection.	✓
<p>Per the above, GS1 will check and confirm data with you. Take images and verify your Barcode conforms to global standards. Capture your On Pack Data then send your ProductFlow Verification Report through to Foodstuffs.</p>		

Supplier Catalogue "Seeding" Complete?	Y / N / N/A
Opted in for Label Data Updates?	<u>Y</u> / N / N/A
Opted in for ProductFlow Data Fix?	<u>Y</u> / N / N/A

Notes: Once Foodstuffs activate you on ProductFlow, you are no longer required to use the Foodstuffs eXchange to update product content ('Product'). Foodstuffs will be able to access your product images directly from the GS1's image repository ([Media Library](#)) if they are present.
